Number and Place Value	I can count in multiples of 6, 7, 9, 25 and 1000
Number and Place Value	I can find 1000 more or less than a given number
Number and Place Value	I can count backwards through 0 to include negative numbers
Number and Place Value	I can recognise the place value of each digit of a 4 digit number (thousands, hundreds, tens and units)
Number and Place Value	I can order and compare numbers beyond 1000
Number and Place Value	I can identify, represent and estimate numbers using different representations including measures
Number and Place Value	I can round numbers to the nearest 10, 100 or 1000
Number and Place Value	I can solve number and practical problems that involve large positive numbers
Number and Place Value	I can read Roman numerals to 100 and know that the number system has changed to include 0 and place value
Addition and Subtraction	I can use estimating and inverse operations to check my answers
Addition and Subtraction	I can add numbers with up to four digits using formal column methods
Addition and Subtraction	I can subtract numbers with up to four digits using formal column methods
Addition and Subtraction	I can solve two step addition and subtraction problems using different methods and explain why I used them
Multiplication and Division	I can recall times tables facts up to 12x12
Multiplication and Division	I can use place value and number facts to multiply and divide mentally, including multiplying by 1 and 0; dividing by 1; and multiplying together 3 numbers
Multiplication and Division	I can use factor pairs in mental calculations
Multiplication and Division	I can multiply two digit and three digit numbers by a one digit number using a formal written method
Multiplication and Division	I can solve problems involving multiplication and addition, including the distributive law such as 3x(12+14) = 3x12+3x14
Fractions	I can recognise and show, using diagrams, families of common equivalent fractions
Fractions	I can count up and down in hundredths and know that dividing an object by 100 creates hundredths and by 10 creates tenths
Fractions	I can solve problems involving fractions to calculate quantities and fractions to divide quantities
Fractions	I can add and subtract fractions with the same denominator

Fractions	**I can find and write decimal equivalents using tenths and hundredths**
Fractions	**I can find and write decimal equivalents to 1/4, 1/2 and 3/4**
Fractions	**I can divide one and two digit numbers by 10 and 100 and can explain the effect this has on place value**
Fractions	**I can round decimals using tenths to the nearest whole number**
Fractions	**I can compare numbers with the same number of decimal places up to two decimal places**
Fractions	**I can solve simple money and measure problems involving fractions and decimals to two decimal places**
Measurement	**I can convert different units of measurement. <eg>I can convert kilometres into metres or hours into minutes</eg>**
Measurement	**I can measure and calculate the perimeter of a rectilinear figure (Including squares) in centimetres and metres**
Measurement	**I can find the area of rectilinear shapes by counting squares**
Measurement	**I can estimate, compare and calculate different measures, including money in pounds and pence**
Measurement	**I can read, write and compare time between analogue and digital 12-hour and 24-hour clocks**
Measurement	**I can solve problems where I need to convert units of time such as hours to minutes, minutes to seconds, years to months or weeks to days**
Properties of Shape	**I can compare and classify geometric shapes, including quadrilaterals and triangles, based on their properties and sizes**
Properties of Shape	**I can identify acute and obtuse angles. I can compare and order angles up to two right angles by size**
Properties of Shape	**I can identify lines of symmetry in 2-D shapes presented in different orientations**
Properties of Shape	**I can complete a simple symmetric figure with respect to a specific line of symmetry**
Properties of Shape	**I can recognise where angles are greater than two right angles. I know the term straight angle refers to two right angles together**
Properties of Shape	**I can use line symmetry with two lines of symmetry**
Position and Direction	**I can plot positions on a 2-D grid as positive number coordinates**
Position and Direction	**I can describe movements between positions as translations of a given unit to the left/right and up/down**
Position and Direction	**I can plot points I am given and draw sides to complete a given polygon**
Statistics	**I can interpret and present discrete and continuous data using appropriate graphical methods, including bar charts and time charts**
Statistics	**I can solve comparison, sum and difference problems using information presented in bar charts, pictograms, tables and other graphs**
