

Spinderella Challenge

Hello nursery children,

I hope you are enjoying the nice weather. I have a new challenge for you.

Listen to the story 'Spinderella' by Julia Donaldson. You can find it by clicking on the link below or typing the book title into YouTube.

The story is about a spider who really wants to learn to count.

<https://www.youtube.com/watch?v=Qjgp3YiaKJw>

Activity One

Make your own Spinderella puppet. Remember spiders have 8 legs. You can count the legs on your spider to make sure you have the correct amount.

Here is my Spinderella. I made it from an old egg box and pipe cleaners. I decorated it with stickers.

For the body you could use:

- A yoghurt pot
- A box
- Playdough

For the legs you could use:

- Pipe cleaners
- Match sticks
- String /wool or shoe laces

Activity Two

Take your Spinderella puppet on a counting adventure. Maybe you could take Spinderella outside to the park or garden.

Can you count:

- how many cups you have in your cupboard?
- how many pairs of shoes you have?
- how many ladybirds you see?
- how many friends you see?

Activity Three

Take your Spinderella puppet on a number hunt. Look at door numbers, street signs and bus numbers.

- Can you find the numbers 1-10?
- Can you find the numbers 10-20?

I would like to see your puppets, why not send me a photo by email?

Have fun!

Ms Barbara
