- Year 3 Natural History Museum - South Africa & Namibia

Wednesday 6th - Tuesday 12th October

- Travelling Book Fair to be held in school playground

Tuesday 12th October

- Year 6 Height & Weight

Thursday 4th November

Parents Evening
20th & 21st October

Dear Parents/Carers,

We are already halfway through this half-term and there is a tangible sense of purpose and commitment that begins the moment the children come through the gate in the mornings. The lifting of the majority of the coronavirus restrictions has had a galvanising effect on us all, particularly the children and it is wonderful seeing them learning and playing together again.

Parent Meetings

We will be holding parent meetings during the final week of this half-term: **Wednesday 20th and Thursday 21st October**. Your child's class teacher will be able to tell you how well your child has settled in to this academic year, how they are performing in class, and what they need to do next in order to make progress. We will be holding these first meetings online, using Microsoft Teams and you will soon be sent a link where you can sign up for a time of your choice. We hope to be moving towards in-school meetings in the spring term.

After-School Club Expectations

These should begin next week. Please remind your child that clubs are a privilege and poor behaviour choices in school could mean that children will not be able to attend clubs if they are not following (or adhering to) the school rules. Repeatedly breaking school rules might result in a child being banned from attending clubs for a set period of time. Please ensure you know the day and the time your child needs to be collected. Staff give their time freely to run clubs, so please be punctual in collecting your child after the club finishes. Children can bring a piece of fruit to have as a snack before their club starts, if they need to top-up their energy levels, but as they will have had lunch not long before, a single piece is sufficient. They will also need a water bottle, especially for sports clubs.

Central Park All Stars Girls Football Club

The above girls' football club, based in Central Park, are currently looking for more girl players as a way of promoting healthy living, a sense of community, a love for sport and, more importantly, to break down social and cultural barriers. Their coaches are FA trained and have the appropriate DBS checks and most of them live locally. The founders of CPA FC are Andrew and Suhail and their contact details are on the attached poster.

Governing Body

The governors will be in school all day on **Tuesday 28th September**, meeting and planning for the year ahead. Some of them will be on the gates and in the playground on Tuesday morning and would be only too pleased to meet, and speak with, as many parents as possible. Please come over and say hello and share your thoughts about the school.

Kevin Reid
Headteacher

Big Talk Home Learning

If children can't say it then children can't write it.

Dear All,

This weekend's BTHL 24th / 25th / 26th September

Tuesday 21st September was The International Day of Peace. The theme this year was: Recovering better for an equitable and sustainable world.

What could we do to make our school and community a more peaceful place?

News from Upper Phase - Year 5

In English this half-term, the children have read and explored a range of texts, including stories from Ancient Greek myths and The Highwayman - a poem written in the style of the 18th century. Over the next two weeks, the children will be writing their own newspaper article based on their reading of The Highwayman. In preparation for their Big Write, the children will be analysing the features of a newspaper article and will understand how structure and presentation contributes to the reader. The children will be learning to use inverted commas accurately and will be learning how to use direct and indirect speech. The children have enjoyed reading The Highwayman and used their inference skills to understand the personality of the characters. They have been encouraged to use evidence to support their understanding of the characters. You can support your child at home by asking them challenging questions about what have been read, and by encouraging them to justify their answers using the text.

Over this half-term in mathematics, the Year 5 pupils have been focusing on number. They have been learning about the importance of place value and how to read and write numbers in numerals and in words. The children have been rounding numbers to the nearest 10,000 and 100,000. For some support and a visual representation, they have been using number lines to help them round numbers. This week they will be adding and subtracting numbers up to 1 000 000 using formal written methods. The children will be challenged to explain why we need to sometimes rename and exchange when we add and subtract numbers. They will move onto solving word problems and will be using bar models to help represent and understand the question.

In science, the Year 5 children have been looking at how plants reproduce. They have learned about how some plants reproduce sexually and how some plants reproduce asexually. The children have been learning about the different parts of a plant and the important roles they have. The children had the opportunity to dissect flowers and explore plants in real life using magnifying glasses to analyse them closely. They have been encouraged to explain their understanding of how plants reproduce and use scientific vocabulary in their explanations. In the coming weeks, the children will be learning about the life cycle of different species and will have the opportunity to compare their life cycles.

During wider curriculum lessons this term, Year 5 have been learning all about ancient civilisations. They have researched fascinating facts about the Ancient Sumer and Indus Valley civilisations and have considered how life is both similar and different to modern times. During art, the children will be creating their own Sumerian clay tablets which they will decorate with letters from the Ancient Sumer alphabet. During our religious education lessons, Year 5 have explored a range of religious and non-religious ideas about God. They have looked at how God is represented in a variety of religions and contexts and participated in whole-class discussions, where they shared different viewpoints. In connection with our RE topic, the children will be visiting the Ramgarhia Sikh Gurdwara on Thursday 30th September 2021, where they will be able to explore the holy place for Sikhs and have the opportunity to ask lots of questions!

Birthdays in Year 5

Caudwell Children's Get Sensory Packs

Caudwell Children is excited to announce the launch of our Get Sensory Packs! We've listened to our families who told us that occupying their children, finding appropriate and safe toys and the money to provide their children with the equipment they would like is even more difficult than usual at the moment.

In response to this, we have created The Get Sensory Pack to provide **affordable sensory equipment** to support disabled children during this especially difficult time. These packs are available to children who have a **confirmed** disability or chronic illness.
