Reception, ASD & PMLD  
(internal)

**Last day of school**  
**Friday 1st April**

**Spring break**

**Monday 4th April—**  
**Monday 18th April 2022**

## Dear Parents, Carers and Children,

With the days growing lighter, and the sunshine beginning to feature more prominently in the playground, the pupils of Brampton Primary School locked in another week's worth of knowledge and skills. Walking along the corridors and by classrooms, glancing around the eager faces, it is easy to see the enthusiasm for learning emanating from each child. Children ask questions, discuss their ideas

and qualify their understanding. Teachers develop thinking, model processes and move learning forward.

On Thursday this week, as children entered the playground, they were treated to a fantasy world: superheroes, villains, magicians, footballers, fairy tales characters – both modern and classic – and various other fictional persons, thoughtfully selected from favourite literature. A number of children and parents shared their views on the most impressive adult costumes; almost the entire cast of Shrek appeared in EYFS. Staff were even caught having conversations during lunchtime about their favourite stories and the books they are currently reading. In the resource provision, children from across the school came together to read, engage with, and enjoy books in a variety of ways: feeling the softness of an animal's mane, experiencing what it would be like to pull a turnip out of the group and listening to the sound of a bird's song.

At Brampton Primary, our mission is to promote reading for pleasure across the curriculum, and the teachers thoroughly enjoy sharing their passion for books with their classes. We know how important reading is to a child's future success and we want to thank parents and carers for their continued support at home, particularly reading regularly with children.

Have a lovely weekend everyone.

Kevin Reid  
Headteacher

## Big Talk Home Learning

If children can't say it then children can't write it.

Dear All,  
This weekend's BTHL 4<sup>th</sup> / 5<sup>th</sup> / 6<sup>th</sup> March

This week, we celebrated World Book Day. Lots of us dressed up as characters from our favourite books.

Which costume inspired you the most and where could you find the story it came from?

## News from mid phase —Year 4

This term in mathematics, the children have been building on their understanding of decimal numbers and the values of each digit in the number. The children have been learning about tenths and hundredths. They will learn how to count, order and record the decimals in different ways. Moving on to finding equivalence between tenths and hundredths and being able to compare and order the numbers. The children will learn to continue linear number sequences as well as round decimals to the nearest whole number. They will also make links between tenths and hundredths by dividing by 10 and 100. With your child, ask them to roll a dice to create two decimal numbers, for example, 0.32 and 0.48. Ask the children to compare the decimals using the more than and less than symbols  $>$   $<$ . Can the children explain *how* they know which is greater and which is the smaller decimal?

In English, the children have been reading, reciting and drafting poems as part of the whole school topic on poetry which has connections to the wider curriculum topic, *Mother Nature*. The children have been exploring the following poetic features: similes, metaphors, personification and rhyme. The children particularly enjoyed writing similes and metaphors for the sun and moon. They have since moved on to writing kennings. Kennings are phrases of two words, which have a metaphorical meaning, that replace a noun in poetry, often found in Anglo-Saxon and Norse poems. With your children you could write a kenning about one of the images below.

In science this term, the children will be learning about states of matter and how solids, liquids and gases differ. Through practical experiments, observations and taking measurements, the children will be exploring how states of matter can change from a solid to a liquid or a liquid to a gas. The children enjoyed exploring what happens to water when it reaches below 0 degrees and testing to see if it is a reversible change. They tested to see what would happen to chocolate buttons when heat was applied.

Liquid  $\longrightarrow$  solid

Solid  $\longrightarrow$  liquid

Finally, last term, the children learnt about ancient Mayan civilisation. We welcomed a Virtual Reality company into the school for a workshop that explored a range of ancient villages. The experience was amazing and the children came away from it, full of excitement. Please see the images below as a testament to this.

Awe and wonder

Exploring the temple

Something disgusting!

On tour of the village

## Birthdays in Year 4

Asha, Nateeja, Yusra,  
Abeeha & Praneel
