Dear Parents/Carers,

Re: National Numeracy Day

The children at Brampton Primary will be participating in National Numeracy Day, which will take place on **Wednesday 22nd May 2024**. This day provides us with a wonderful opportunity to celebrate and promote numeracy skills among our pupils.

On **Wednesday 22nd May**, we invite all of the children to express a concept of Numeracy on a t-shirt – whether it is a shape, a number, or a mathematical symbol. Throughout the day, both children and adults will engage in a thrilling challenge: sharing three interesting facts about each other's numeracy concepts. Here are some ideas to inspire you:

As part of our commitment to providing enriching learning experiences for your children, we have organised for **The Problem Solving Company** to **run workshops** across the school **during the week** for each of the classes. These workshops are designed to engage students in critical thinking, logical reasoning and mathematical understanding.

In order to cover some of the costs associated with these workshops, we are kindly requesting a contribution from parents/carers. We kindly request a contribution of either £2, £1.50, or £1. Any amount you can contribute will be greatly appreciated and will directly support the provision of these valuable learning experiences for your child. Payment can be made on SchoolMoney, link will be sent to parents. You can adjust the amount you wish to pay.

Maths Problem Solving Days are not only enjoyable but also play a crucial role in promoting onward progression in mathematical skills.

We would like to thank you for taking the time to share our passion of mathematics with your children, engaging them in real life numeracy situations and inspiring them to become incredible mathematicians.

If you wish to discuss this event in more detail or have any questions, please contact the office or speak to either of us at the end of the day.

Yours faithfully,

Mrs Sadia Shah
EYFS and KS1 Mathematics Lead

Miss Toni Hart
KS2 Mathematics Lead
